Well written.

Could you add a paragraph on how the district has revisited this many times and revised the weeded (SB150) list? I thought it might be worth mentioning. Give her insight into our processes and how it has changed. The list is significantly smaller than the original weeded list from this summer. I think that is worth mentioning.

Also, does the weeded list she was given include books that would have been weeded, regardless of SB150, due to natural fruition?

Just some thoughts.

PS in all the years Mike was Superintendent, tax rate increase (no matter how small) were never passed with a unanimous vote. There's a first you can hang your hat on—and a more positive one! 🍷

This is a good response. You may want to mention that our library books are considered part of our instruction or presentation. I think that is a point people could argue that library books are not. That may be where she keeps saying we are getting bad legal advice. You may want to ask where she is getting her legal advice. Or not.

Hey Steve and Jackie,

I've taken care of the Sora information for you. We looked through those titles as well and only weeded those that were explicitly in opposition to SB 150. Also, for ease of return, you will look up the title, select add copy, and then scan the barcode of the book, and it will be added back into your circulating collection.

Does this make sense? If you need help, please let me know.
Stephanie
